ELECTRIC MOBILITY

EV chargers and electric scooters powering every journey.

From home AC chargers to ultra-fast charging hubs, and electric scooters for everyday travel. Clean, reliable and safe charging for each vehicle class.

What is included

- Clean, reliable and safe charging
- Home to highway-scale charger classes
- Electric scooter with zero tailpipe emission
- Low running cost and long battery life
- Service and spares through our network
- Installation inside our three districts

Best for

Housing societies, offices, fleet operators and highway sites; daily commuters and delivery riders for scooters.

EV Chargers

Home 3.3 to 7.4 kW, commercial 11 to 22 kW, fleet 30 to 60 kW, highway 120 to 180 kW, hub 240 to 360 kW.

EV Scooter

Electric scooter for daily travel: zero tailpipe emission and low running cost. Models on request.

Specifications are as published by the manufacturer. Product images are representative. Subsidy eligibility, availability, pricing and warranty terms are confirmed in your written quotation. This brochure does not collect payment; pay only through the official Wavesun Energy channels stated in your quotation.

HOW IT WORKS & WHAT TO EXPECT

EV chargers and electric scooters
from enquiry to running.

How an EV charger connects

1 **Grid supply** — Your connection → 2 **Meter** — Measures the energy → 3 **Charger** — Controls the charge → 4 **Vehicle** — Charges safely

Charger sizing

- Tell us the vehicle class and how many vehicles
- Share the site power supply and sanctioned load
- We recommend a charger class and quote by kW

Incentives

This brochure does not promise any EV incentive. Ask us whether a programme applies to your purchase before you order.

01
Call to scope
A short call to confirm the site, load and what the product must do.

02
Written quotation
Itemised pricing, scope, warranty terms and timelines. No obligation to proceed.

03
