SOLAR APPLIANCES

Solar air conditioning

cool your home on the sun's power.

Run your air conditioning on solar power for lower daytime bills and quiet, fast cooling. Daytime cooling is the largest line on most summer electricity bills.

What is included

- Runs on solar power during the day
- Lower electricity bills and more savings
- Quiet operation and fast cooling
- Durable build
- Installation inside our three districts
- Delivery across India for products

Best for

Homes, offices, shops and hotels that want to cut daytime air-conditioning cost.

Solar AC

Solar-powered air conditioning with quiet operation, fast cooling and a durable build. Quoted per unit.

Specifications are as published by the manufacturer. Product images are representative. Subsidy eligibility, availability, pricing and warranty terms are confirmed in your written quotation. This brochure does not collect payment; pay only through the official Wavesun Energy channels stated in your quotation.

HOW IT WORKS & WHAT TO EXPECT

Solar air conditioning
from enquiry to running.

How a solar air conditioner runs

1 **Solar panels** — Make DC power

→

2 **Inverter** — Convert for the AC

→

3 **Solar AC** — Cools the room

→

4 **Lower bill** — Less grid use by day

Subsidy

PM Surya Ghar covers residential rooftop solar systems. It does not cover the purchase of a solar air conditioner. Ask us about any other programme that may apply to you.

Pairing with solar

- A rooftop kit sized for your daytime load is the usual pairing.
- We size the kit from your bill and sanctioned load.
- Your written quotation shows both items together.

01
Call to scope
A short call to confirm the site, load and what the product must do.

02
Written quotation
Itemised pricing, scope, warranty terms and timelines. No obligation to proceed.

03
Supply or install
Delivery across India for products, or installation and commissioning inside our three districts.
