SOLAR PUMPS

Solar irrigation pumps
powering farms, without diesel.

A 100% solar-powered irrigation pump with high-efficiency panels, a durable pump and a smart controller with safety protections. Low running cost, no diesel to buy.

What is included

- 100% solar power for irrigation
- Low running cost; no diesel
- High-efficiency solar panels
- Durable pump
- Smart controller with safety protections
- Installation inside our three districts

Best for

Farmers replacing diesel pumps, and rural water supply.

Solar Pump

High-efficiency panels, a durable pump and a smart controller with safety protections. Quoted by horsepower and head requirement.

Specifications are as published by the manufacturer. Product images are representative. Subsidy eligibility, availability, pricing and warranty terms are confirmed in your written quotation. This brochure does not collect payment; pay only through the official Wavesun Energy channels stated in your quotation.

HOW IT WORKS & WHAT TO EXPECT

Solar irrigation pumps
from enquiry to running.

How a solar pump irrigates

1 **Solar panels** — Make DC power

→

2 **Controller** — Protects and manages

→

3 **Pump** — Lifts water

→

4 **Field** — Irrigates the crop

What we need from you

- Land size and the crop or water need
- District and the source of water
- Pump depth and the head requirement

Subsidy

PM Surya Ghar does not cover solar pumps. Ask us about agricultural programmes in your district. Eligibility is set by the authority running them.

01
Call to scope
