## A simple rule that protects everyone

Partners do not collect a customer's project payment or promise a subsidy, price or commissioning date. Wave Sun Energy handles the technical and commercial process after the lead is logged.

Both partner routes are open across India; no territory is reserved. SRG's local stock, joint site surveys and warranty escalation support are for Ghaziabad, Gautam Budh Nagar and Bulandshahr.

03 · ILLUSTRATIVE INCOME EXAMPLE

# A clear calculation—not a promise.

## ₹10,00,000 × 10% = ₹1,00,000

### The example is not a target or a ceiling.

Your commission may be higher if you personally close additional eligible sales, and lower if fewer eligible sales complete. Advisors earn on their own sales only; there is no indirect tier. No monthly income is guaranteed.
